

Triodos Regenerative Money Centre

Investing in early-stage change makers

Traditional investment systems often fall short when it comes to driving genuine, systemic change. We bridge the gap by financing projects that lead to positive, transformative impact.

Our focus

We seek initiatives that:

- Drastically challenge the system to accelerate transitions
- Are scalable or have a replicable business model
- Have proven market traction with over 2 years of revenue generation
- Possess an experienced management team and complementary founders
- Are located and active in Western Europe

What we offer:

- Investments ranging from €0.5 to €3 million
- Various financial instruments including equity, debt, and more
- In-depth expertise, a valuable network, and advice

Impact themes

Build ecologically and socially resilient agriculture and food systems

Actively restore and sustain nature and biodiversity

Our impact subsegments:

- Promote more sustainable and nutritious diets
- Connect consumers to sustainable food producers
- Nature-positive and carbon-negative farming practices
- Enhance transparency in the food system or in nature restoration
- Boost nature and biodiversity restoration

How to request funding

Does your initiative match our criteria? Pitch it to us! Scan the QR code.

A glimpse into our portfolio companies

Treevive

A sustainable forest carbon project accelerator, facilitating climate finance for forest conservation and restoration.

Sea Ranger Service

A social enterprise that transforms young people into ocean conservationists, fighting for marine biodiversity restoration.

Wilder Land

Producers of alternative food and drink products from local crops, aimed at boosting biodiversity and supporting farmers, benefiting nature and communities.

Impact Institute

Providers of impact advisory services and open-source standards that empower organisations to measure and manage their social and environmental impact.

Herenboeren

An organisation fostering nature-driven cooperative farming communities in the Netherlands, accelerating agricultural and food system transitions.
